Configuration and management of InfiMONITOR

> ✓ Successfully pass the free certification exam at IW Academy and become an Infinet Certified Engineer.
>
> **To the certification exam**

InfiMONITOR could be configured and managed via the special web-interface.

Enter monitoring system web-interface IP-address : http://XXX.XXX.XXX.XXX,

where XXX.XXX.XXX.XXX - IP-address assigned at InfiMONITOR installation stage. In order to change the IP-address, use the service mode.

System may announce you about unsecured connection while entering to the **InfiMONITOR** web-interface. This is due to the fact that the required protection certificate is not assigned by the certification authorities center. This error does not affect the **InfiMONITOR** security.

Figure - Certificate trust request

To prove the certificate trust expand the "ADVANCED" tab and click on "**Proceed to XXX.XXX.XXX.XX (unsafe)**".

Title

Figure - Trust proving

Afterwards you will be prompted to enter authorization data.

Figure - Authorisation window

⚠

Title

> ⚠️ **NOTE**
>
> By default, use the following web-interface authorization data:
>
> - Login - "*admin*"
> - Password - "*admin*"
>
> It is mandatory to change *"admin"* password, before initial configuration of the **InfiMONITOR**.

After the successful login, you will enter **InfiMONITOR** management interface. **InfiMONITOR** management interface has the following sections:

- SNMP configuration
- User accounts
- Adding hosts and links
- Events management
- Notifications configuration
- License
- Disk space
